# IB Primary Years Program Model

# PYP Program Model

---

The PYP curriculum is a student-centered approach to education for children aged 3-12. The framework begins with the premise that students are agents of their own learning and partners in the learning process. It prioritizes people and their relationships to build a strong learning community. PYP students use their initiative to take responsibility and ownership of their learning.

# Early Years

***“At Schutz American School we see children as unique human beings who want to connect. This capacity for relationships supports children with learning about themselves and others and provides many opportunities to express (and learn about) how to be caring, resilient, confident, compassionate and responsible.”***
